bandoXaldecor® IN 10 POINTS

1. Choice of textures, colours and finishes.
2. Consistent finish and colour across the entire surface, at the heart of the material.
3. 100% recyclable, the environmentally friendly product par excellence.
4. Tough and light, its durability over time is exceptional.
5. Fireproof-rated in fire resistance tests.
6. Available in various thicknesses, from 0.25 mm to 1 mm, in coils or sheets of up to 1,250 mm.
7. Designed for a wide range of transformation techniques, from bending and shaping to cutting, gluing and stamping.
8. Can be silkscreen printed, hot stamped, and laser, mechanically or chemically engraved.
9. Easy to clean with a soft cloth and an alcohol-based product or soapy water.
10. Delivered with a removable protective film, protecting the material right up to its end use.

**YOUR
DESIGN
PARTNER**

bandoxaldecor®

CONTINUOUS ANODISING

gives lasting, invisible protection against corrosion, while improving aluminium's intrinsic reflective properties. Thanks to electro-brightening, it is possible, at will and indefinitely, to incorporate colours that are consistent and stable over time, into the very heart of the material

THE INFINITE RANGE OF COMBINATIONS OF COLOURS AND FINISHES

available allows you to choose the surface, texture and colour for an expressive, lasting and tailor-made solution.

ALUMINIUM

is part of our professional, cultural and family environment. Indeed, it has become an essential part of our day-to-day lives. This exceptional material is blessed with a range of natural physicochemical and aesthetic qualities. With bandoxaldecor®, we have further enhanced it to include colour, transparency and texture.

BANDOXALDECOR®

offers you a wide range of colours, spanning the entire spectrum, as well as a range of fascinating variants such as metallic shades. It also offers a broad selection of finishings: smooth, satin-finish or textured.

THE WIDE RANGE OF SURFACE FINISHES AND COLOURS

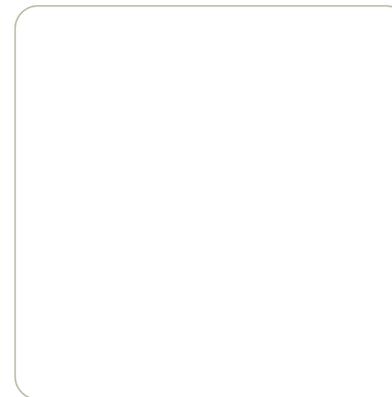

enables designers to give their aesthetic vision free rein for architecture or interior design. bandoxaldecor® is inspiring designers and architects, opening up new horizons: airports, shopping malls, cruise ships, shops, hotels and casinos, exhibitions and fairs, trade centres or public buildings.

Using bandoxaldecor®, will give your creative design its own individual character.

BANDOXALDECOR®

is becoming the material of choice for wall-boards, suspended ceilings, designer furniture, decorative lighting, switches, covering plates and display stands, blending perfectly with wood, glass, ceramics...

This versatile material, representing an attractive alternative, is replacing other metals such as stainless steel, brass and copper.
