

DECOR 4000

TECHNICAL DATA

FINISH	Profiles				
TREATMENT	Electrolytically brightened anodized				
ALLOY	1050 - Al 99.50%	EN 573-3			
TEMPER	H18	EN 515			

MECHANICAL VALUES

	Required Standards	
MINIMUM TENSILE STRENGTH Rm [MPa]	140	EN 485-2
MINIMUM YIELD STRENGTH Rp 0.2 [MPa]	120	EN 485-2
MINIMUM ELONGATION A ₅ A ₁₀ [%]	1	EN 485-2
CORROSION RESISTANCE [h]	500	ASTM-B117

PROTECTION

		Coils		Sheets	
		Front	Back	Front	Back
Strippable polyethylene film	50 to 80 μ				
Adhesive tape	Double side				
Paper Interleave				Х	

Storage conditions:

- > Storage in a temperate and dry warehouse. Drastic temperature changes and humidity must be avoided **Packaging**:
- > Coil eye vertical or horizontal, both are suitable for domestic and international shipping.
- Wooden skids and boxes fumigated according to ISPM15 when requested

Health and environment

- ➤ This product complies with directive 2002/95/CE on RoHS
- > This product is an article within the meaning of REACH Regulation EC 1907 / 2006 and do not contain any of the Substances of Very High Concern of the ECHA Candidate List, in excess of 0.1 % w/w

Update April 2016 - Rev. 01
